Amusements.

THE C. C. COMBINATION AND
FRANK DREW.

We esteem it a misfortune that the audiences were not larger at the performance of this company, and our people missed thereby the opportunity of witnessing some of the finest comic acting now producible in this country. The sparseness of attendance was attributable to two causes, the terrible inclemency of the weather and the previous presentation here of entertainments not attractive to the same class of people as we have enjoyed the sterling excellence of Mr. Drew's acting. It was not known in fact till two days before the performance that he would act with the company, and there was no opportunity of giving publicity to the fact soon enough to interest the public.

The piece selected for performance was Brougham's drama of "Temperance, or the Irish Emigrant." Brougham himself was the original representative of the principal Irish character in his play, but was not successful in it as Mr. John Drew, who afterwards assumed the part and made it one of the most attractive pieces of Irish comedy that has ever been put on the stage. On his death his mantle fell upon his brother, Mr. Frank Drew, who is now the typical representative of the part. What he gives us is not the stock caricature of the Irishman, but it is Paddy himself, studied from the life lovingly and faithfully, with all his fun and all his foibles, and all his warm-hearted geniality. We have seen nothing equal to it since the days of Paddy, the stage Irishman of our boyhood.

The after-piece was "Nan the Good-for-Nothing," in which Miss Tessie Duggan, the principal lady of the company, greatly delighted her audience with her naive rendition of the title role. She is a very young actress, and promises to become a comedienne of the school of Lotta and Maggie Mitchell, and no unworthy successor of these little comic queens. We hope for the company better success than they met with here.

JOHN THOMPSON.
This well-known specialty actor gave a performance on Monday night to the best house any company has had here for some time. The entertainment was received with delight by all who were there; indeed we doubt whether anyone could have gone without finding something to his liking in the evening's program, for it was a protean comedy in which Mr. Thompson gave his audience a taste from a variety of choice dishes. The entertainment opened with "Sweethearts," a pleasant little two-act comedy which was well rendered. This was followed by "Around the World in Eighty Minutes," in which a gentleman of slender means, whose wife has a mania for traveling and wants to visit foreign countries, devises a plan to cure her of this wish. He essays to so thoroughly disgust her with the people of other nations that she will be content thereafter to remain at home. To this end he disguises himself and appears before her as a specimen of first race and then another, until finally he accomplishes his purpose—she no longer wishes to travel. In these burlesque impersonations, which are profuse of fun, Mr. Thompson displays his wonderful versatility of talent, and whether as character actor, musician, magician or dancer, he is a complete success. He is well supported by Miss Dottie Nagle and Miss Mollie Thompson, the latter of whom, it may be mentioned, is a musician of superior merit.

JANASCHER.
We go to press too late to record the acting of Madame Janascher, but rejoice to report a number of places taken sufficient to insure a good success. Our notice of this performance must be reserved for next week.

The Dangerous Snow.
The dangers have been in a dangerous condition from the frozen snow; it ought to have been removed not only from the sidewalks but from the gutters beside them; ladies dismounting from carriages are peculiarly liable to accidents from this cause, as it is just where they set their feet in stepping down. Mrs. Quarles, wife of General William A. Quarles, met with a very severe accident from this cause last Saturday, breaking both bones of the ankle joint, and Mr. Mattill a still more severe one on Tuesday, breaking the thigh bone a few inches below the hip joint. Elderly people especially should be very careful how they step; the snow is no longer beautiful but treacherous and dangerous.

Captain Daniel the ice king, has had his machinery at work, and by to-night will have his tanks frozen to the bottom, a depth of six feet, and their contents converted into solid blocks. His rival, Santa Claus, has been doing a pretty good business in the same line the last week, but the Captain has beaten him in the proportion of six feet to three or four inches. It is really a wonderful illustration of the laws of calorific to see the power which the conveyer of the destination white with hoar frost, while those which return the condensed fluid are too hot for the hand to bear contact with them.

We are unable to say whether the accession of a republican governor in Tennessee will occasion any change in the state officers; but we wish to express the hope that two very efficient officers will retain their places. They are Col. Jas. L. Gaines, comptroller, and Col. J. B. Killebrew, commissioner of mines, agriculture and immigration. The former officer, we believe, is elected by the legislature, the latter appointed by the governor. While mentioning this subject we will suggest the correction of a very shabby piece of parsimony on the part of the last legislature, in refusing to the latter officer his traveling expenses. There is a good deal of difference between economy and meanness.

CHAS. MALLORY, colored, one of the best-dressed and most gentlemanly men in the city, who has been confined in jail at Nashville, died on Tuesday last.

Educational Congress.

THE PREPARATIONS FOR THE STATE
EDUCATIONAL CONGRESS ARE IN ACTIVE
PROGRESS.

Besides the professional musicians mentioned last week, the following distinguished amateurs have volunteered their assistance in the musical department: Misses E. Patton, Meta and Lois Visser, C. Humphreys, E. Simms, M. Adams, L. Wilson, A. Humphreys, W. Ligon.

Messrs J. Moore, J. West, E. Kellogg, A. Catching.

Messrs W. Forbes, R. Jackson, D. P. Wright and Prof. Caldwell.

Persons arriving in Clarksville for the purpose of attending these meetings should proceed at once to the Howell school building and enquire for A. Howell, Esq., chairman, or any other member of the reception committee, upon which they will be conducted to the places assigned for their entertainment.

The meetings will be held in the upper room of the Howell school building; the opening exercises to take place on Thursday night at 7 1/2 p. m.

These will consist of the address of welcome by the Hon. Rufus N. Rhodes, to which it is presumed a reply will be made by the state superintendent, Col. Leon Trousdale. Other addresses will be made, of which due notice will be given, and some fine music by the professional and amateur musicians whose names have already been given.

We give the following as a revised list of the addresses and subjects for discussion which will be introduced at the various meetings:

Prof. Caldwell, superintendent of the public schools of Nashville—"The True System of Teaching."

Prof. J. B. Shearer, D. D.—"The Scripture in the School-room."

Prof. C. R. Hemphill, M. A.—"The School, College and University."

Prof. J. W. Caldwell, M. A., M. D.—"Childhood and Nature."

Prof. D. M. Quarles, M. A.—"Moral Dependence of English and Latin Grammar."

Dr. D. F. Wright—"The Range of Studies in Public Schools."

Rev. J. H. Gold—"Teaching."

Prof. A. G. Mosely—"Object Lessons."

Sup't E. Perkins—"How to Awaken and Sustain an Interest in Study."

Mrs. Blaisdell, of the Clarksville Female Academy—"The Teacher's Need of General Culture."

The attendance of the public is invited.

Thanksgiving Day.

The annual festival was duly celebrated in the city of Clarksville, to the satisfaction of every one except the turkeys and young pigs; most of the churches were open for divine service and well attended; the customary hospitalities then followed, we accepted those of Mr. Roth who spread a banquet for a large list of invited friends, which lasted from 10 in the morning till 3 in the afternoon. This enabled the guests to take it as breakfast luncheon or dinner according to their usual arrangements. Being pretty nearly a man of one meal a day, we made a dinner of ours and a very capital dinner it was, as everybody will infer who knows the gastronomic capacity of Roth's establishment; may he live and prosper through many Thanksgivings. The postoffice and most of the business houses were closed at least for part of the day. The boys were precluded from their usual amusement of hunting by the state of the weather which can only be designated as a cold cheerless sloppy thaw; we take it for granted that they went to church.

On Monday last a car load of hogs and one of mules was shipped from this place to Louisville, Ky. We were surprised to find that the railroad company had no stock pens at the depot for the shipment of live stock. We were told that nearly every station on the road from here to Louisville is supplied with this convenience. At this place the stock have to be driven through the depot building to load them on the cars, and that it is a very great trouble and annoyance to the shippers. Will not our railroad authorities look into this matter and give us at least one stock pen. It is to their interest to do so.

Matrimonial.

The city board has at last succeeded in making what all men will recognize as a fair contract with the waterworks company. The company is to keep sixty feet of water in the stand pipe which will enable three nozzles working at the same time to throw a stream of water over the roofs to the highest houses. They are to furnish water for the practising of the fire company and for the flushing of the sewers, and their remuneration is to be \$2,000 per annum. This contract is made for five years.

MR. M. M. KLINE, of the publishing firm of Norwood and Kline Bros., has been on a visit to our city canvassing for subscribers to the third volume of the Tennessee State Directory. This is a valuable work and should receive the patronage of every business man throughout the state; it is at once with every variety of statistical information and a first-class advertising medium.

PROF. CRIGHTON, the most successful teacher of penmanship in the south, has returned to Clarksville, and will open his school Monday night, over the postoffice. His pupils will bring stationery, and those that can will bring a lamp.

Handsome Presents.
For ladies and gentlemen can be found at Owen & Moore's.

The Prettiest
And most complete line of fancy goods, suitable as presents for all ages, can be found at Owen & Moore's.

Come and See.
No charge for looking at our handsome stock of Christmas goods for old, young and middle-aged.

How Beautiful!
Is what the ladies say when they see those handsome gloves and handkerchiefs, hats, ribbons, satin and velvet, at Owen & Moore's.

The river is falling with three and a half or four feet on Harpeth Shoals.

Knights of Pythias Banquet.

The Knights of Pythias gave a banquet on Thanksgiving evening at their hall, to the members and their families. Notwithstanding the unfavorable weather, the hall was filled with the beauty and chivalry of the city. The evening was pleasantly passed in conversation, promenade, and general mirth. It was evident those present had come out to enjoy the evening, and accordingly each one gave his mite toward the general pleasure. For the benefit of the ladies present a side degree was bestowed upon a number of candidates. The ceremonies were of the most friendly, touching and pathetic character, and more than one eye was bedewed with tears (caused from excessive laughter), though every candidate admitted at the close. "I'm sold!"

At about half-past ten the refreshments were served, and all present gave themselves up to its enjoyment with zest.

Too much credit cannot be given to the committee on arrangements for the perfect success of the evening. Everything moved off smoothly and pleasantly, without unnecessary delay. The supper was elegant and bountiful, and all present will remember with pleasure this joyous occasion.

Religious.
The Rev. C. M. Howard is about to commence a series of religious services at the Presbyterian church, commencing to-day at 8 1/2 p. m.

This gentleman is no ordinary minister. He has for a long time been occupied as a traveling evangelist of the country, recently in Virginia, where his ministrations have been blessed to the conversion of many souls. He always makes his first efforts on the young people and children. He will preach to young people and children this and tomorrow afternoon (Saturday and Sunday) at 4 1/2 p. m., and on Monday at 4 1/2 p. m. He will preach to adults throughout the week at 7 p. m. every night.

People of all denominations, all classes and all ages are earnestly invited to attend. His address is 1010 Broadway, New York City. He is a young man, well educated, and his ministrations have been blessed to the conversion of many souls. He always makes his first efforts on the young people and children. He will preach to young people and children this and tomorrow afternoon (Saturday and Sunday) at 4 1/2 p. m., and on Monday at 4 1/2 p. m. He will preach to adults throughout the week at 7 p. m. every night.

Death of Mrs. Glenn.
Mrs. Jane M. Glenn died on Tuesday, the 23d inst., at the advanced age of seventy-eight. This lady was mother of James L. Glenn, Esq., of the Northern Bank, and Richard Glenn, of Memphis, and Miss Mollie Glenn, of this city. She was a lady of unusual energy of character, and while she retained her health, exercised a marked influence in society and in the Presbyterian church, of which she was a member; but her powers of mind and body have been for some time impaired by wasting sickness, which has secluded her from all but immediate relatives.

Court House.
The iron work which has been so long waited for to complete the cupola of the court-house is now, we are informed arrived and also the heating apparatus; the carpenters are getting in the staircase and the plastering and flooring are in rapid progress. We shall soon have a temple of justice such as no city need be ashamed of.

The Cold Spell.
The degree of cold we have had the present week is, we are told, unprecedented during the past twenty years; the Ohio has been nearly obstructed with ice, threatening an aggravation of our coal famine, and several of the harbors on the great lakes are already closed. At the present writing however (Thursday) signs of relenting are visible and we shall probably have rain before the week is out.

Matrimonial.
We take pleasure in recording the marriage of Mr. Phillip T. Millet, express agent at this place to Miss Lily E. Shackelford of Atlanta, Ga. The marriage took place at Atlanta on Thursday afternoon at 1 o'clock. Mr. Millet has long been a favorite in the best social circles of this city, and his lovely bride will receive a cordial welcome here on her arrival this (Friday) evening.

Fire Protection.
The city board has at last succeeded in making what all men will recognize as a fair contract with the waterworks company. The company is to keep sixty feet of water in the stand pipe which will enable three nozzles working at the same time to throw a stream of water over the roofs to the highest houses. They are to furnish water for the practising of the fire company and for the flushing of the sewers, and their remuneration is to be \$2,000 per annum. This contract is made for five years.
